

Poly RealPresence Platform Upgrade Service

New releases update - up to 3 infrastructure products

Group	Software Service & Support
Manufacturer	Poly
Manufacturer item no.	6867-08279-005

Description

The objective of the Polycom RealPresence Platform Upgrade service is to implement the Polycom software revision onto your Polycom RealPresence Platform solution while minimizing disruption to your overall video conferencing environment. This service is appropriate if you have a set of Polycom RealPresence Platform infrastructure products in a production environment and are running a legacy software release.
