

HPE VMware vCenter Server Foundation Edition for vSphere

Licence + 5 Years 24x7 Support - OEM

Group	Storage Accessories
Manufacturer	HPE
Manufacturer item no.	BD518A
EAN/UPC	0886112838751

Description

VMware vCenter Server is the simplest, most efficient way to manage VMware vSphere - whether you have ten VMs or tens of thousands of VMs. It provides unified management of all the hosts and VMs in your datacenter from a single console with an aggregate performance monitoring of clusters, hosts and VMs. VMware vCenter Server gives administrators deep insight into the status and configuration of clusters, hosts, VMs, storage, the guest OS and other critical components of a virtual infrastructure - all from one place.

With VMware vCenter Server, virtualization environments are easier to manage: a single administrator can manage 100 or more workloads, more than doubling typical productivity in managing physical infrastructure.

VMware vCenter Server Foundation provides powerful management tools for smaller environments looking to rapidly provision, monitor, and control virtual machines.

Main features

Product Description	VMware vCenter Server Foundation Edition for vSphere - licence + 5 Years 24x7 Support - 1 licence
Product Type	Licence
Category	Utilities - server virtualisation
Licence Qty	1 licence
Licence Pricing	OEM
Bundled Support	5 Years 24x7 Support
Service & Support	Technical support
