Description

The HP Client Virtualization with VMware View offers an end-to-end solution based on the best managed and virtualization-ready HP ProLiant and BladeSystem Servers, HP Storage, and HP Thin Client access devices. It is a desktop replacement solution that provides IT teams with the flexibility to quickly deliver and refresh desktops no matter what the device is. You can reduce the business risk associated with potential data loss or theft, and lowers the complexity and cost of desktop management, while continuing to provide end-users with the functionality of a stand-alone desktop.
