Kensington®

SureTrack™ Dual Wireless Mouse – Red

Travel with a mouse as boundless as you

K75352WW

Product Description

Expect more from your wireless mouse. The SureTrack™ Dual Wireless Mouse amplifies your productivity with more – more tracking surfaces, more connectivity options, more security and more personalisation. The first low profile mouse to offer adaptable wireless connectivity options (2.4GHz, Bluetooth 3.0 and Bluetooth 5.0) to accommodate a wide range of computing devices from laptops and desktop PCs to mobile smart devices, the SureTrack™ Dual Wireless Mouse also provides precision tracking on the most difficult surfaces, including glass. The ambidextrous 3-button design is equipped with AES 128-bit encryption, a triple DPI switch for simple cursor speed transitions, premium quiet buttons and multiple colour options.

Features

- Provides multiple pairing options – connect to a laptop or mobile smart device via Bluetooth 3.0 or 5.0 (Bluetooth LE) to save a valuable USB port, or to a desktop PC via the 2.4GHz USB-A Nano dongle.

- The high-performance optical sensor tracks quickly and accurately on even the most difficult modern office surfaces, including glass, granite, lacquer, marble and wood.

- Meets corporate security protocols and protects your data from potential hackers with government-grade encryption technology.

- Easily adjust the cursor speed to meet your needs by selecting the appropriate DPI level (1200/2400/4000) – higher DPI for casual browsing or word processing and lower DPI for precision editing.

- Works with Windows, Chrome OS, macOS and Android OS. An ideal mouse for desktop PCs with or without Bluetooth functionality, and newer devices with Bluetooth LE, such as the Surface Pro and MacBook Pro.

Specifications

- **Operating system(s)** Chrome OS, macOS, Windows
- **Colour** Red
- **Connectivity** 2.4GHz USB Receiver, Dual USB Receiver & Bluetooth, Wireless
- **PDP Request Quote** Yes

- **AES Encrypted?** Yes
