Description

Stream movies or make video calls without worrying about a low battery! The all-new snap+ powerstation stand contains a 10,000mAh internal battery and charges iPhone 12 and other devices in an ultra-versatile package. The snap+ powerstation stand includes a magnetic array to take advantage of wireless charging at up to 7.5W of power to iPhone, up to 10W of wireless power to other Qi compatible smartphones, and up to 20W of wired USB-C PD power to quickly charge another smartphone. An adjustable stand folds out to turn the powerstation into a portable stand that charges your phone while you text or stream. The snap+ powerstation stand also includes a standard one-quarter inch tripod socket to take your video calls and content creation to the next level. The magnetic array ensures charging begins on contact, so you get the perfect charge every time.
