Poly Remote Installation - Remote installations / configuration

Group	Network Service & Support
Manufacturer	Poly
Manufacturer item no.	4870-84027-001

Description

Polycom Installation Services are available for Video Conferencing Systems, MGC Network Systems and Network Solutions Software products. These comprehensive services maximize your technology investment and provide you with a single, expert resource.
Remote Installation service allows customers to work directly with a Polycom Technical Support Engineer to install their Polycom product. Remote Installations are conducted by means of phone at a dedicated date and time. Remote Installation services are available for the ViewStation and ViaVideo products.
