

VMware Horizon Advanced Edition

(v. 8) - Term Licence upgrade (1 year) - 10 named users - upgrade from perpetual licence - no vSphere

Group	Software
Manufacturer	VMware
Manufacturer item no.	HZ8-ADN-10B1-1Y-TLSS-UG-C

Description

The Horizon enables IT to centrally manage images to streamline management, reduce costs, and maintain compliance. With Horizon, virtualized or hosted desktops and applications can be delivered through a single platform to end users. These desktop and application services - including RDS hosted apps, packaged apps with ThinApp, SaaS apps, and even virtualized apps from Citrix - can all be accessed from one unified workspace to provide end users with all of the resources they want, at the speed they expect, with the efficiency business demands.
