for 30 tablets / notebooks - lockable - black - output: 5 V

Group	Notebook Accessories
Manufacturer	DIGITUS
Manufacturer item no.	DN-45000
EAN/UPC	4016032465331

## Description

The mobile charging cabinet from DIGITUS is the ideal and compact solution for storing and charging your portable devices such as notebooks and tablets. Mobile charging cabinets are frequently used in public facilities such as schools in order to store devices securely at a central location while charging them at the same time. The cabinet includes 3 rows with 10 charging stations each, all of which have their own USB connection on the front. The devices can also be connected with installed socket strips (3 x 10 safety sockets) at the back. Thanks to ample cable feedthroughs and excess cable storage, optimal cable management is guaranteed. Installed ventilators (3 x 24 V) combined with ventilation slits ensure active cooling of the cabinet.

## Main features
