Keyboard and keypad set - wireless - 2.4 GHz - English

Group	Input Devices
Manufacturer	Microsoft
Manufacturer item no.	5KV-00005
EAN/UPC	0885370602012

Description

With its modern, ergonomic design, Sculpt Ergonomic Keyboard sets the standard for support and comfort. It keeps your hands and arms in a relaxed position as you work, helping you feel refreshed after a day at your desk without soreness or injury.

Sculpt Ergonomic Keyboard is built on advanced ergonomic principles, with a split keyboard layout that keeps wrists and forearms in a relaxed position, and a cushioned palm rest that protects against inflammation and repetitive stress injuries. The domed keyboard shape works to reduce and correct excessive wrist pronation that can cause pain and limited mobility. The natural arc layout follows the curve of your fingertips for a more natural way of typing. The reverse-tilt design positions the keyboard at the correct angle to give you a neutral wrist position.

Main features

Product Description	Microsoft Sculpt Ergonomic Keyboard For Business - keyboard and keypad set - English
Device Type	Keyboard and keypad set - ergonomic
Interface	2.4 GHz
Wireless Receiver	USB wireless receiver
Input Device	Keyboard
Connectivity Technology	Wireless
Localization and Layout	English
