Description

The Meural Canvas II brings an expansive library of the world's most inspiring artworks to your wall. Now you can display paintings and photos from artists next to your own photography on the elegantly designed digital canvas. Every work of art looks as real and textured as it would on a traditional canvas or print thanks to the TrueArt Technology - and you can easily customize and cycle through playlists of art with intuitive hand gesture controls, online, on the app, or by asking your compatible smart assistant to find something new.
