Microsoft Office Project Professional

Licence & software assurance - 1 subscriber (SAL) - SPLA - Win - All Languages - with Project Server CAL

Group	Software
Manufacturer	Microsoft
Manufacturer item no.	H30-02394

Description

Project Professional is the desktop enterprise project management program that is used with Project Server and Project Web Access to form the EPM Solution.

Project Professional provides all the core project management tools found in Project Standard, but also works with Project Server and Project Web Access to provide portfolio management and modeling, skill-based resource assignment, and project collaboration. Project managers can publish information from Project Professional to Project Server to share and track project plans centrally.
